Ford County Special Education has always made [student's] needs a priority. She is doing well in school and I owe that all to her wonderful IEP team!! Thank you for all you do!
I appreciate the team assisting my child in his education needs. He has made great progress. Thank you.
I love the team pbl has assembled
I was not impressed with the way the school principal sat behind his computer and barely said 2 words the entire time. I understand this is his first year with my child but believe he should of been a little more interactive. Maybe its because my son has been in trouble because of his mouth this year???
